SYDNEY LEADERSHIP 2011

INFORMATION SESSIONS

Sydney Leadership represents one of the most extraordinary and most powerful leadership development opportunities in Australia today.

Since 1999 over 360 senior and emerging leaders from business, government and not-for-profit organisations have discovered the meaning of real leadership in this challenging, year-long program.

Inspired by a Harvard model but taught in the 'real world' – not in a classroom – Sydney Leadership will help you discover the skills, wisdom and bravery you need to activate deep change in yourself, in your organisation and in the world. Come along and find out about more at our breakfast or evening sessions:

**CHALLENGE
